

CCSCC, General Refund Policy:

1. If CCSCC cancels an event, any time before the day of the event, all drivers who have paid for the cancelled event will be refunded the entrance fee via PayPal.
2. If CCSCC cancels a "1st day event", the 1-day registration fee will be refunded along with any 2nd day registration fees. If the "2nd day event" then is not cancelled, that event will be at the "1st-day" fee.
3. A driver may withdraw from the event and receive a refund in full prior to the closing of the event registration. The amount refunded will be the cost the driver paid for only that day. If they paid by check, their check will be returned to them at that time. If they paid by cash, they will be refunded with cash at that time. PayPal refunds will be processed at a later date.
4. When registration closes, a driver can withdraw from the event, and request a voucher for an equivalent day event later in the season. A voucher will then be mailed to Driver's provided postal address. For instance, if the driver withdraws on a "2nd day event" and has paid the \$20 fee. The voucher will be issued for a "2nd day event" and not issued for "\$20".
5. If a driver requests a refund by the end of the driver's meeting, a refund or voucher will be issued.

Special circumstance refunds:

1. If Driver requests a refund, they will not be allowed to drive that day. They can stay around and "ride and watch" but not drive.
2. Weather prevents event from completing - If everyone has had "4 runs", produce results and do trophies. If only 1 heat has run, give everyone a voucher for a similar day registration fees.
3. If a driver is breaking the safety briefing rules and is behaving in an unsafe manner, they will be asked to leave and no refund will be allowed.

General Principle of refunds:

- Before the event, PayPal refund.
- At the event, vouchers or AXWare Bank credits.
- All vouchers or AXWare Bank credits are good for the remainder of the current season.
